## Polio Survey Is Made On Patients

A sweeping survey to canvass the current rehabilitation needs of all post-polio patients in the county is being conducted by the Palm Beach County Chapter of the National Foundation for Infantile Paralysis.

George W. Hulme, Lake Worth, chapter chairman, said the local survey is part of a nationwide project to compile a roster of polio cases of all ages and degree of disability, regardless of date of onset. The survey is to be completed by Sept. 1.

The March of Dimes organization, Hulme said, has scored a tremendous victory in its war on polio, and does not now propose to walk off and leave the wounded behind, so long as help for them is possible. We wish to find everyone who has had polio, whether paralytic or nonparalytic. We want to know what the special problems may be, so that these people may be helped to regain useful lives, Hulme said.

Some 600 post polio patients are being sought throughout the county and each of them is being asked to contact the Palm Beach County Chapter, National Foundation for Infantile Paralysis, 215 Marlborough Road, West Palm Beach. As soon as contacts are made, Hulme said, the former polio patients are mailed a questionnaire to fill out and send back to the chapter. It is through these questionnaires that information being sought in the national survey, is compiled.

The local chapter has been keeping records on its patients for several years, but in the interim, addresses have changed, families have moved and for other reasons the chapter file is not complete, Hulme said. We are making attempts to reach some of these people by newspaper, radio and television publicity.

In cases where post polio patients have already received their questionnaires, Hulme urged that they be completed as soon as possible and returned to chapter headquarters.

## Routine Business By City Council

The Pahokee City Council in regular session with Loren Meredith presiding in the absence of President John Hatton, adopted an ordinance amending the zoning laws to include a new zoning classification, "M" for motels and efficiency apartments.

Following this action a public hearing was conducted on the proposed change in zoning of property on East Main St., owned by L. G. Alderman, from residential R-1 to M and since no complaints were made, Alderman was granted this zoning change by ordinance. The Council also held at the meeting a hearing on the assessments which the city is imposing on the assessments which the city is imposing on property owners for payment of the new sidewalk construction fronting their property on Carissa Drive but no protests were received.

The Pahokee Chamber of Commerce, in a letter written by Dr. R. C. Lane, of the Merchants committee, requesting that the allotment for advertising be increased by \$1,000 in the new city budget.

O. D. Carpenter and his son, Milton Carpenter, appeared before the Council with the request that the city's insurance be distributed more equitably among the local insurance agencies or make all city insurance subject to competitive bids. The Council voted by resolution to have the city clerk advertise for competitive bids on all city insurance as the time comes for the issuance of new policies or renewals, according to the decision of the Council after the opening of bids.

Mayor F. S. Parrish was appointed to contact the engineering firm of K. C. Mock and Associates with a request for blueprints for the proposed comfort stations to serve the Pahokee Harbor area since the firm prepared sketches and blueprints are necessary for the contractor to start construction.

Police Chief Leon Guthrie was instructed to install a regulation traffic stop light at the intersection of Barfield Highway and East Main Street and a blinker caution light at the intersection of Barfield Highway and Belle Glade Road. ### Cinematic Chatter

By Malcolm Millar

\*\*\*\*\*  
Hello everybody! Ella Kazan has him, M-G-M has him, Twentieth Century-Fox has him, Hal Wallis Productions has him. Everybody else wants him! Nevertheless, Anthony Franciosa doesn't look on himself as a "hot" actor. "Anything hot has to cool off," says the handsome, dark-haired Franciosa, who is well on his way to becoming the newest romantic sensation of the screen. "I'm just fortunate that at last I am working as an actor, and I just want to keep on working." He won rare notices on Broadway last season for his performance in "A Hatful of Rain." Before he finished the run of the play, Ella Kazan signed him for one of the lead roles in the film, "Face In The Crowd," made in New York. M-G-M signed him for his Hollywood debut in "This Could Be The Night." Producer Hal Wallis signed him to a non-exclusive contract for one picture a year for five years. And, by the time he finished "This Could Be The Night," M-G-M had signed this much sought-after new star for two more pictures. A few years ago, however, acting jobs were so scarce for this young man that he was forced to supplement by working variously as a dishwasher, awning installer, welder and printer's devil. "Even after my first Broadway play, 'The Wedding Breakfast,' I held onto my job as a waiter in a restaurant in Greenwich Village," he says. "I didn't want to take any chances. And I needed the extra money to take care of my studies at the Actor's Studio." Franciosa decided to become an actor when he was eighteen. He won his first part in a Y. W. C. A. play, quite by accident. Accompanying a friend who was reading for a part, he himself was talked into trying out—and thus launched his career. It was while studying with the Actor's Studio that he received his first breaks. He won small parts in two Broad-

way shows. Now he is well on his way to stardom in pictures. See you at the movies—Mal.

## School Milk Price To Be Investigated

TALLAHASSEE—Florida dairy industry leaders have long contended that milk price fixing was imperative if dairymen were to stay in business and this view has been sustained by the Florida Milk Commission even in the face of vigorous public protest.

Now the picture has changed with a new commission in power headed by J. Bralley Odham of Sanford, long a bitter opponent of price fixing. Four new members are now seated on the board giving it an entirely new look.

Taking Milk Commission posts last week in addition to Odham were Jackson Logan of Tampa, consumer member, Wilmer Bassett, Monticello, distributor, and Robert Carter, State Board of Health representative.

A hearing has been set by Chairman Odham for Sept. 11-12 in Tallahassee to consider milk prices in schools. A recent increase is now under public protest.

At a reorganization meeting of

the new commission, Odham said he would like to see the commission search the milk industry to find out if there are any "operators whose inefficiency is costing the public under the price control system."

A state law prohibits the milk commission from setting prices on school lunch room milk.

Just before the new commission took over an order was issued requiring distributors to pass producers top prices for the milk that goes to schools. This ruling was protested by the major distributors. One producer stated that if he could not get 7½ cents per one-half pint he couldn't break even and did not want the business. Milk prices were recently raised from 6 to 7½ cents in schools.

Governor Collins has tried unsuccessfully for two years to remove price fixing controls.

Miss Jean Kay Dennis celebrated her 17th birthday anniversary at an outdoor party and picnic given by her uncle and aunt, Mr. and Mrs. Lloyd Hundley, at the Boy Scout Beach picnic grounds north of Pahokee Harbor.

### 6 Million Payin' Guests

We have two kinds of guests at our house... plain company and payin' guests. We rent out our spare room—the company pays their way and we all enjoy their visit. Works out fine.

I see where the State of Florida expects six million payin' guests this year. These people spend money by rentin' rooms and buyin' meals, which means good business for the hotel and restaurant folks. Another nice thing is that these payin' guests leave a lot of money in Florida as taxes.

From where I'm sittin' this makes a new kind of payin' guest. The hotel and restaurant

people do all the fixin' and feedin' and the rest of us in the state get our share of the money.

Lots of these people are so-cial, like to enjoy a glass of beer and they leave quite a bit of tax money on that one item alone. Only last year, Florida collected over 15 million dollars in taxes on beer and ale. All adds up to pretty good payin' guests, I'd say.

## Pick your savings target and shoot straight for it!

A home... financial security... a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months)—they're soon worth much more than you've invested in them. And your Bonds will continue to pay this same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$7.50 a week. In 5 years you'll have Savings Bonds worth \$2053 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

**THE FLORIDA REAL ESTATE REVIEW**  
BY MORRISON I. TAYLOR  
CHAIRMAN  
FLORIDA REAL ESTATE COMMISSION

BECAUSE REAL ESTATE plays such an important part in our Florida economy today, and because it touches the lives and the pocketbooks of all Floridians at one time or another, your Florida Real Estate Commission—cooperating with the newspapers of our state—offers Florida people this monthly review of our real estate program.

Headquarters of the Commission are in Orlando, Florida (letters, questions and complaints may be addressed to us at P. O. Box 1393 there) and representatives of the Commission are in Jacksonville, Tampa, St. Petersburg, and Miami.

We investigate all complaints made against real estate brokers and salesmen, though we are happy to say that there are very few reaching us; and the most Florida real estate people are doing a fine job of helping to build a better state.

Today's real estate market in Florida is very sound, and we do not anticipate any depreciation in our land values for a long time to come. In fact, as most of you know, Florida is enjoying a fine solid and dependable growth.

Property owners should be wary of unknown solicitors representing themselves as real estate brokers or salesmen. Every real estate man or woman licensed by the Florida Real Estate Commission carries an identification (registration) card with him. When in doubt, ask to see it.

Just do this: Sign a Payroll Savings application at your pay office, naming a certain sum to be kept aside from your pay before you get it each week—a few dollars or as much as you want. After that, you're saving automatically—nothing to worry about, nothing to do. And, best of all, the money saved out of your pay each week is automatically invested for you in U.S. Series E Savings Bonds.

Because Savings Bonds earn solid interest—3% cumulative semiannually when held to maturity

—the few dollars saved from your pay each week soon grow into big generous amounts. For instance, if you sign for \$12.50 a week, in just five years you'll have \$3,348.95 cash. In 9 years, 8 months, you'll have \$7,217.28!

So don't let down payments get you down. Meet your needs for ready cash the way more than 6 million other Americans are meeting theirs—join the Payroll Savings Plan today. Or, if you're self-employed, invest in Bonds regularly where you bank. Start now to make your dreams come true!

*If you want your interest as current income, ask your bank about Series H Bonds, which pay dividends annually by Treasury check.*

*Uncle Sam made the bonds you own  
an even better bargain!*

# Now your maturing Series E Bonds can earn interest 10 more years at 3%

PRESENT TREASURY REGULATIONS make it possible for you to collect a return of as much as 80% on the Series E Savings Bonds you already own!

For now those Bonds which you invested in 10 years ago can go right on earning interest for ten more years without your doing a thing about it! That is true not only of the Bonds which you have held for ten years, but any other Series E Bonds which you have invested in in the meantime. And any Series E Bonds which you obtain now will also enjoy the extended earning period. They will start earning interest sooner and mature earlier, too, paying 3%, compounded semiannually.

The Bond you got for \$18.75 can now pay you \$33.67 . . . a \$37.50 Bond will be worth \$67.34 . . . and so on.

Of course, any Series E Bond may still be redeemed at any time after you have held it for two months. But, like any other form of saving, your Bonds will mean a great deal

more to you if you can hold on to them.

Are you one of the millions of Americans who are saving regularly with Savings Bonds through the Payroll Savings Plan? If you're not, why not start now? Invest regularly in Bonds through the Payroll Savings Plan where you work. Ask your pay office to save as little as 25c a week for you, or as much as you are able.

If you can save just \$5 a week regularly through the Plan, in five years you will have \$1,367.90 . . . in 9 years and 8 months, you'll have \$2,850.70 . . . and in 19 years and 8 months, \$6,872.45! This Plan is one sure way to save because it saves something out of every check before you have a chance to spend it.

So join the Payroll Savings Plan where you work today. Or, if you are self-employed, start the Bond-A-Month Plan where you bank. It's safe, it's sure, it's automatic. And you will be helping yourself and your country!

If you want to be paid  
your interest as current income—  
invest in 3% Series H

If you want a good, sound investment which pays you your interest by check every six months, ask at your bank about United States Government Series H Bonds. Series H is a new current income Bond available in denominations of \$500 to \$10,000. Redeemable at par after 6 months and on 30 days' notice. Matures in 9 years and 8 months and pays an average 3% interest per annum if held to maturity. Interest paid semiannually by Treasury check. Series H may be purchased at any bank, annual limit \$20,000.
